DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite because it fails to recite the structure that is necessary to result in an adaptive Gray-Markel lattice notch filter having the recited adaptive notch filter. Similarly claim 6 is indefinite because it fails to recite the steps that are necessary to effect the recited filtering. Line 6 of claim 3 is grammatically incorrect. Claim 4, line 2; it appears that before comprise the word "each" should be inserted because the subsequently recited elements are in each of the adapters.

Allowable Subject Matter

2. Claims 1-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Specification

3. Lines 20-24 of page 9 are improper because refer to the claims in the specification is improper.

Drawings

4. It appears that Figs. 1 and 2 should be labeled "Prior Art". In Fig. 3 it appears that the second input to the elements 320 and 370 should to a "-" sign rather than the shown "+" sign.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
